SUMMARY

Self-driven Web & App Developer with 1 year of hands-on practice experience building real-world projects in collaboration with a local software team. Skilled in React, Next.js, Redux & Responsive Design. Looking for a Frontend / Full Stack Developer role.

SKILLS

- Frontend: HTML5, CSS3, Tailwind, Bootstrap, React, Next.js
- Backend: Node.js, Express, REST APIs
- Mobile: React Native
- Other: Redux, Git/GitHub, Performance Optimization

PRACTICAL EXPERIENCE

Freelance / Remote Collaboration - Apprex Systems

07/2024 - Present (*Tando Allahyar, Remote*)

- Built responsive web pages & reusable components (React + Tailwind)
- Integrated REST APIs & optimized web performance
- Collaborated with senior dev for code reviews & best practices
- Deployed projects on Vercel & Netlify for testing

PROJECTS

- Portfolio Website - React & Tailwind CSS, fully responsive, deployed on Vercel
- Task Manager App - CRUD app with React + Redux + REST APIs
- E-commerce UI Clone - Next.js + Tailwind, product listing & cart UI
- (All projects available on GitHub)

EDUCATION

- BSCO - Apprex Academy (2024)
- Certified Computer Operator - SMIT (2023)
- MA in Arabic & Islamic Studies - Jamia Tul Madina (2018)
